EDUCATION

New York University, College of Arts and Science (New York, NY) 2022 - 2026

Bachelor of Arts in Economics and Computer Science (GPA: 3.75)

- Dean's List for Academic Year (2022-2023; 2023-2024; 2024-2025)

Stanford University, Stanford School of Engineering (Online)

Expected Oct 2026

Certificate of Achievement in Artificial Intelligence: Principles and Techniques

- Topics: search, constraint satisfaction, Markov decision processes, graphical models, machine learning, and logic.

EXPERIENCE

Lingxi Games, Alibaba Group (Guangzhou, China), *AI Product Manager Intern* Jun 2026 - Present

- Designed AI agent solutions for marketing workflows by translating requirements from 200+ internal users into product specifications, agent architectures, and end-to-end workflows spanning content generation, competitive intelligence, and knowledge management
- Built a structured RAG-enabled marketing knowledge base using Google OKF-inspired schemas and an LLM Wiki framework, integrating source validation, daily content linting, MCP-based document management, and golden-question evaluation across 500+ documents and 2,500+ knowledge chunks
- Developed 20+ domain-specific AI agent skills supporting content creation, competitor intelligence, player sentiment analysis, and workflow automation; designed an automated Bilibili advertising monitoring system that cut manual competitive analysis from 3 hours to 30 minutes (83% reduction)
- Collaborated with software engineers and marketing stakeholders to define product requirements, prioritize features, validate agent performance, and iterate on AI capabilities based on user feedback and business objectives
- Authored product requirement documents (PRDs), workflow diagrams, evaluation criteria, and acceptance standards to guide the development, testing, and deployment of enterprise AI agents across multiple marketing use cases
- Conducted user research and usability testing to identify workflow bottlenecks, recommend product improvements, and drive adoption of AI-powered "digital employees" designed to improve operational efficiency and decision-making across the marketing organization

New York University Learning Center (New York, NY), *CS, Math & Accounting Tutor*

Sep 2024 - Dec 2025

- Conducted in-person one-on-one sessions helping students learn data structures and accounting
- Facilitated weekly structured study sessions, helping ~110 students in time management and effective study; led CS workshops and review sessions before exams; explained key concepts, problem-solving strategies, and coding exercises to reinforce students' understanding; improved their understanding by 30%+

Lingxi Games, Alibaba Group (Guangzhou, China), *Marketing Intern*

Jun 2025 - Aug 2025

- Researched AIGC images, videos, and games platforms; produced two 6000+ word reports; listed as project introduction documents group-wise and received 90%+ positive feedback
- Managed company-owned Douyin account, using Hailuo and Dreamina (AIGC platforms) to produce content; analyzed performance data to refine content, achieving 800+ followers in 3 weeks
- Supported 9Game (mobile game downloading platform)'s summer KOL campaign by crafting ad copy and reviewing promotional videos; resulted in +9.55% exposure UV and +11.56% interaction UV

Ascent Partners Foundation (Remote), *Research Intern*

Jul 2024 - Aug 2024

- Conducted literature reviews on quantifying the effect of climate change to countries within the tropical belt; provided over 30 concise literature analyses to serve as a reference base for incoming researchers
- Investigated Doughnut Economics; produced an analysis of the possibilities of using Doughnut Economics as the final framework for the research done by Tropical Belt Initiative, which advocates for greater recognition and financial support
- Assisted on the International Union for Conservation of Nature (IUCN) visit to Hong Kong and Sri Lanka's representative's visit to Beijing, China; managed detailed note taking, translating, and travel logistics

Cypress Capital International Ltd. (Shanghai, China), *Summer Analyst*

May 2023 - Aug 2023

- Drafted pre-investment due diligence checklist on a logistic company; requested documents including business registration, patents, & financial plans from the target company for company valuation
- Enhanced investment team's Southeast Asia due diligence through detailed documentation and meeting minutes for team use in quarterly reports
- Conducted industrial research on electric vehicle battery industry and equity research on Contemporary Amperex Technology Co. Limited; gave a 1-hour report in the investment committee meeting, for which I received recognition

PROJECTS

Randomized Meal Generator

Nov 2024

- Developed AI-powered website that generates recipes or restaurant recommendations based on user preferences

FinSMEs News Web Crawler

Feb

2024

- Developed tool that crawls, parses, and outputs the information on FinSMEs (a financial news website focused on small and medium enterprises) in a uniform format; used by employees at LXL Capital to efficiently collect news on companies

ACTIVITIES

Washington Square News (New York, NY), *Contributing Photographer*

Sep 2023 - May 2024

- Provided creative and journalistic photographs for news articles; shot from multiple angles including long shots, medium shots, and close ups; read by 65,000 subscribers

SKILLS

Programming: Python, JavaScript, SQL, Java, C

Web & APIs: React, Node.js, Express, Flask, API Integration

Data: MySQL, MongoDB, Selenium, BeautifulSoup

Applied AI: AI Agents, Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP)

Developer Tools: Git, Linux
